

# KT multi | KT special | Multi-hole / special cable grommets, black

for cable diameters 1 - 8 mm and special cables / IP54

Cable grommets KT small are used with the following cable entry components:

- [KEL cable entry frames](#)
- [KVT split cable glands](#)

**Black KT grommets have an increased chemical resistance, e.g. against aggressive oils, coolants etc.**

KT multi-hole and special grommets enable a sealing of the cables with IP54.

When using double or quadruple grommets the cable density of cable entry frames and cable glands can be greatly increased. The multi-hole model range KT small is designed for cable diameters from 1 to 8 mm. icotek also offers special cable grommets for e.g. ASI lines. ATG adapter grommets provide the possibility to hold a small KT grommet to reduce the clamping range down to 1 mm.

When installing the small grommets in multiple rows, the flat sides should be facing each other. This allows the flat sides to match up and provide a secure seal.

## Specifications

|                       |                            |
|-----------------------|----------------------------|
| IP rating (EN 60529)  | IP54                       |
| Material              | Elastomer                  |
| Flame class           | UL94-HB                    |
| Operating temperature | -30 C° to 90 C°            |
| Properties            | higher chemical resistance |

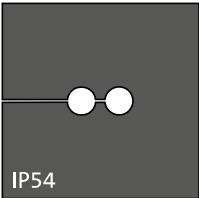

## Advantages & benefits

- Enable routing of pre-terminated cables through cable entry frames and split cable glands
- High strain relief in accordance with EN 62444 when a suitable cable entry is selected
- Available for a large range of cable diameters
- Greatly increased cable density when using double or quadruple grommets
