

Flat gaskets

for cable entry frames

A flat gasket is provided to ensure a clean seal between the cable entry frame and the enclosure / control panel wall. Although this gasket is included in delivery, it can also be ordered separately. The standard gaskets for our KEL cable entry frames are self-adhesive on one side. This facilitates the alignment and assembly of the gasket.

Advantages & Benefits

- Clean seal between the cable entry frame and the enclosure / control panel wall
- Self-adhesive for easier alignment and assembly
