

AT-HA | Genomföringsadapter

för industriella kontakter 3A eller 4A / IP65

The AT-HA grommet is part of the IMAS-CONNECT™ modular adapter system and for the first time enables the direct integration of 3A or 4A inserts into an adapter grommet – without the need for an additional cut-out.

The AT-HA grommet is based on a large KT cable grommet. A robust polyamide body is integrated into the grommet. It is fully compatible with all icotek cable entry frames of the KT system and is supplied ready for use with a pre-assembled locking element.

In combination with the [3A or 4A insert sets](#) and [matching connector housings with M20 or M25 cable glands](#) (see table), the AT-HA grommet offers a compact, efficient and flexible solution for use in industrial applications.

The adapter grommet AT-HA is also [compatible with numerous insert manufacturers](#) (Harting, Ilme, Phoenix Contact, TE Connectivity, Weidmüller, Lapp, Amphenol, Molex, RS Pro, ...).

Specifikationer

IP-Klass (EN 60529)	IP54, IP55, IP64, IP65
Material	Elastomer Basramen: Polyamid
Brandklass	UL94-V0, självslocknande
Temperatur	-40 C° till 100 C°
Egenskaper	silikonfri, halogenfri

Fördelar

Produkttyper och storlekar

ArtNr.	39985
EAN	4251269338953
Antal	5
Längd	42 mm
Bredd	41,5 mm
Höjd	19 mm
Monteringshöjd	2 mm
